# TEACHERS' SATISFACTION

## THE PROJECT

# COMMENTS ON THE MOBILITY

- Mobility helped us to better understand topics of the project and what (and how) we need to do better in future.
- The program must have been more specified. Many of the lectures within the Teachers' Training were not concluded.
- "Dear friends WISH, Thanks for the week of meeting in Romania, West University of Timisoara where we had the opportunity to put in the Erasmus scenario plus our WISH project! We hope that PBL will be able to adapt to all partners for the benefit of schools and students / teachers and students in the 21st Century! Thank you all and we want successful implementation!"

# COMMENTS ON THE COORDINATION (TN)

- The Trans-National Meeting and its parts were among the most productive and efficient segments of the mobility in Romania.
- "Dear friends WISH, Thanks for the innovative ideas of implementing comprehensive inclusive education for all children and young people! PBL will deliver results by building competence to learn to learn, civic competence, digital competency and communication in the Euro-zone! we want success and good growth in what you do in your schools and universities, as well as in the educational communities in which you work!"

# COMMENTS ON THE TRAINING

- I think teachers need more practice activities than theory.
- Most of the trainings should have been concluded with proper recommendations and "how to" in practice - in the environment of the high schools.
- "All presentations and Workshops are of real use! It is important to reach students and classrooms and seminars! Good luck!"
