- There are some cases in life which can set back us compared to others. What they are?
- One of them is to have a disability. What are the types of disability?

The type of disabilities

- 6 groups

- Do you know any handicapped people who is the world-famous?

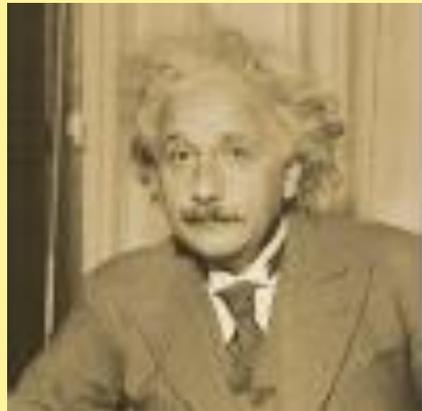

The World's Most Famous Disabled People

Albert Einstein

- The Mathematician/Physicist who had a **learning disability** and did not speak until age 3. He had a very difficult time doing maths in school. It was also very hard for him to express himself through writing.

Alexander Graham Bell

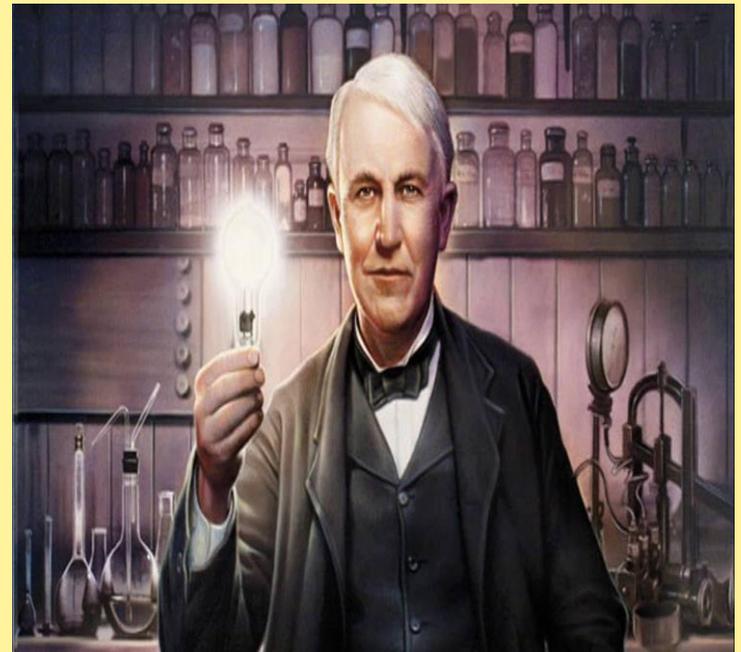

- Had a **learning disability**

Thomas Edison

- Edison is **the great inventor** who had over 1,000 patents and his inventions are in various fields used in our daily life. In his early life he was thought to have a **learning disability** and he could not read till he was twelve and later he himself admitted that he became deaf after pulling up to a train car by his ears. He first captured world attention by inventing the phonograph. His most popular invention is the electric light bulb. He also developed the telegraph system. He also became a prominent businessman and his business institution produced his inventions and marketed the products to the general people.

George Washington

- Had a **learning disability**. He could barely write and had very poor grammar skills.

Francisco de Goya

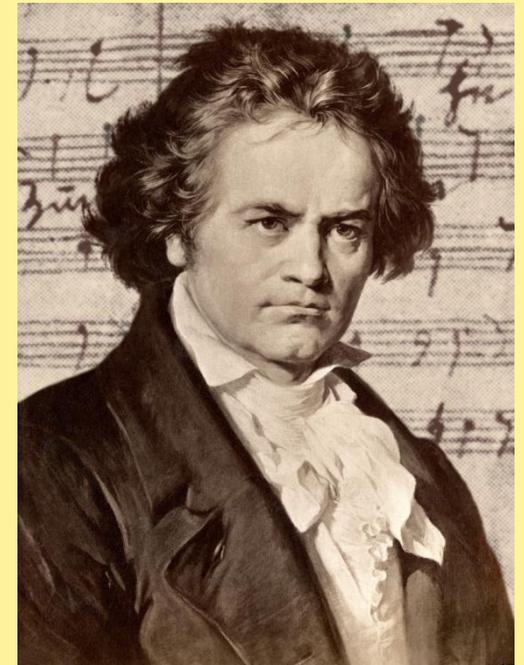

- **Spanish painter** (1746-1828): At age 46, an illness left him **deaf**. He went on to create the most famous Spanish art of the 19th century.

Ludwig van Beethoven

(famous musician) Beethoven is the greatest German composer and musician who was **deaf** at the later part of his life. In his early life he was famous as a pianist. He got the primary knowledge of music from his father, who was a musician. He has some mysterious power which led him to create famous compositions one after another. He went to Vienna and learned from some of prominent musicians. After the age of 28, he started becoming deaf and his personal life was not so peaceful. He composed many piano sonatas such as Waldstein, Appassionata, etc.

Stephen Hawking

ALS (Amyotrophic Lateral Sclerosis)

- **World famous Physicist/mathematician and author** of *A Short History of the Universe* Stephen Hawking is considered as the greatest scientist of the twentieth century after Einstein. Hawking's big bang theory and black hole theory has turned the attention of the world. He is the Isaac Newton Professor of Mathematics of the University of Cambridge. Though he is now nearly paralyzed, he is teaching through a computer supported a machine by which his words are compiled. His physical illness could not make him stop form his research. His famous book is "A Brief History of Time".

Tom Cruise

- (HOLLYWOOD STAR): IS SEVERELY DYSLEXIC

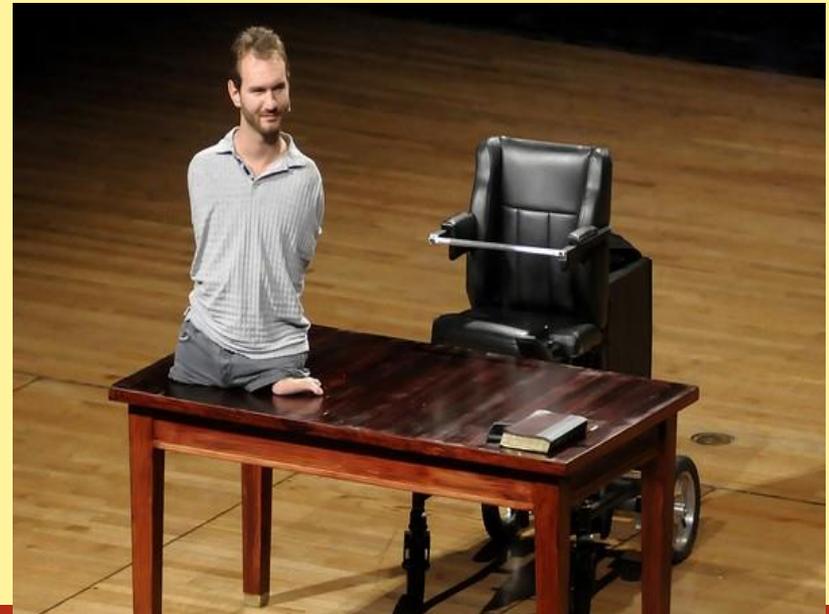

Walt Disney
Had a **learning disability**

Nicholas James Vujicic

- Nicholas James is an Australian motivational speaker born with a rare condition called **the Phocomelia which is the absence of limbs**; both hands and legs since birth. Ever since he was a child, he was the object of bullying at school and was demotivated. He however came to terms with the fact and started functioning independently. Despite all this, he graduated in Commerce with specialization in financial planning. Today he is a world renowned motivational speaker who aims at instilling hope in people helping them to fight their oddities. In 1990 he won the Australian Young Citizen award and he continues to inspire people throughout the globe. He is definitely one of the successful people with disabilities of our times.

Esref Armagan

Esref is a **blind painter** of Turkish origin. Esref Armagan was born both unsighted and to an impoverished family. As a child and young adult he never received any formal schooling or training; however, he has taught himself to write and print. Mr. Armagan is an important figure in the history of picture-making, and in the history of knowledge. His work is remarkable. He has demonstrated for the first time that a blind person can develop on his or her own pictorial skills equaling most depictions by the sighted. This has not happened before in the history of picture-making. He has had exhibitions in Turkey, Holland and the Czech Republic. In 2004, he was the subject of a study of human perception, conducted by the psychologist John Kennedy of University of Toronto.

?

- How do feel?

SOCIAL INCLUSION

- Up to now, we have talked about the inclusion of the disabled individuals in a social life. It is also called “social inclusion”. Social inclusion is defined as “the improvement of conditions to include individuals or groups in society” or
- “the improvement process of the individuals’ and disadvantageous individuals’ skills, opportunities and honor on the basis of their identities for their involvement in the community”

?

- Who are the other disadvantageous groups and individuals to be included in social inclusion?

- Just now, we have talked about what situations could set us back compared to others. One of them is to be a “refugee/migrant”.

Some photographs about refugees

Mission:

- “You have been working as an officer in the commission about refugees in the United Nations. As the commission officer;

“Prepare a report on refugees”

1. “Housing,
2. Nutrition,
3. Health,
4. Education and
5. Employment” **problems and your solution suggestions** concerning the issue.

and

FINALLY

EVALUATION

- How do you feel?
- What do you think about “**Social Inclusion**”?
