

## What is Wish project?

*Project of Wish(Work For An Inclusive School Herritage), Erasmus Plus is a European Union project on social inclusion.*

*The project includes various organizations from Turkey, Slovakia, Romania, Italy and Spain.*

*Gaziantep University, Istanbul Gaziantepiler Anatolian High School and Bahçeşehir College are conducting the project in Turkey.*

*Within the scope of the project students at high school level, training about 21st century skills, social inclusion, project-based learning, IT Technologies are given.*

*As Istanbul Gaziantep Anatolian High School, we have taken the issue of disability contact from three main areas of social inclusion. With this brochure we want to create awareness.*

# Disability in mind

The person with disabilities is restricted to certain movements, senses or functions due to a physical or mental disturbance.

Barriers may come from birth or are caused by illnesses or accidents.

A handicap is a lack of organs in the body.

The expressions of “disabled” defines limitations that are more or less caused by a disease.

Within these statement, the most appropriate and least hurtful is the expression “disabled”.

## What is the rate of disabled people in the World and in our country?

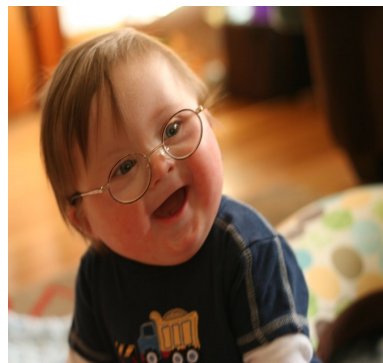

While the rate of disability in the World is 15 percent, in our country, it is around 12 percent.

Disability is divided into 5 categories. These are:

1. Mentally handicapped
2. Orthopedic disabilities
3. Disabled people caused by organ loss
4. Blind
5. Hearing and speech disability

## What types of disability are most seen?

The disability group, which includes the highest number of people, is mentally disabled.
